bell hooks

Feminist Theory from Margin to Center

“it wasn’t anger that I was feeling when I wrote this book...

It was the keenness of insight

it was the clarity of truth-telling

it was the power of breaking out of the bondage of oppression and exploitation

we have to think about why when people of color find our voice

white people so often can only hear that voice as an angry voice”

- keynote at University of Oregon 2006
